

Prepared by Katie Zimmermann

Pending approval of the V-Cat financial reports from October through December 2023, the total amount of unspent appropriations from 2023 is \$ 12,162.02.

According to the WVLS/V-Cat Steering Committee Policy Statement on V-Cat Minimum Reserve Funds approved in 2015:

The V-Cat Reserve Funds will be maintained with no less than \$320,000 and no more than \$375,000.

Annually 50% of any unspent funds which includes any unspent money in the line item for V-Cat Long Term Replacement Fund in the budget will be transferred to the reserve funds and the remaining 50% of unspent funds be transferred to V-Cat Special Projects.

Since the V-Cat Long Term Replacement Reserve Fund is capped at \$375,000.00, the unspent appropriations in the amount of \$6,081.01 could not be applied.

WVLS recommends that \$ 6,081.01 unspent appropriations from 2023 be applied to the V-Cat Training Fund to expand opportunities for conference attendance and continuing education in 2024.

The balance of \$ 6,081.01 unspent appropriations from 2023 will be applied to the V-Cat Special Projects Future ILS Enhancements Fund.

Special projects for 2024 will be selected and approved by V-Cat Council. Possibilities include an Aspen test server, sponsoring an Aspen development, cataloging support, database clean up, training from an ILS vendor among others.

2024 Revised V-Cat Appropriations Plan Draft
