Explanation

This recommendation increases the V-Cat recommendation to match the limit in Sierra and clears up to existing contradictory recommendation about checkouts:

- [V-Cat Recommendation on Maximum Number of Items Checked Out](#)
- [V-Cat Recommendation on Maximum Number of Holds/Check outs](#)

The Sierra patron blocks table is currently set to limit checkouts to 100, and holds to 100 for most patrons. Some libraries limit temporary borrowers to a lower amount of checkouts and holds.
